Enjoy Your Park Responsibly

NO DRONES
Unmanned aircraft is restricted from use in all national parks, including Bryce Canyon National Park. Violators are subject to legal action and fines in accordance with 36 CFR 1.5. Report drone use to nearest park ranger.

LIGHTNING
If you hear thunder, a storm is within 10 miles and a direct strike is possible. The plateau rim is the most dangerous place. Move to a building or vehicle, avoiding trees, hoodoos, and other tall objects. Lightning has claimed 4 lives and injured 6 in the past 24 years at Bryce Canyon.

INJURIES
Ankle injuries from improper footwear, dehydration, falling from off-limits areas, and altitude-related illnesses are the most common emergencies. Explore within your abilities, and don't ruin your vacation with a trip to the hospital!

PETS
Pets are only allowed on paved areas, including park viewpoints, the Shared-Use Bike Path, the Rim Trail between Sunset and Sunrise Points, as well as park campgrounds. Pets must always be leashed, and cleaned up after.

Drink at least 1 liter of water for every two hours you plan to hike.

Pets are not allowed on hiking trails.

Plan Your Visit

Welcome to Bryce Canyon, home to the largest collection of hoodoos (irregularly-eroded rock spires) in the world! Situated along the east edge of a plateau, the park has one main 18-mile north-to-south road and only one entrance/exit. As you enter the park, all viewpoints and hikes are on the left.

BRUCE AMPHITHEATER (First three miles of the park)

The most iconic and popular views of Bryce Canyon are found along the rim of the Bryce Amphitheater: **Bryce, Inspiration, Sunset, and Sunrise Points**. Try to see this area as early in the day as possible. Enjoy a flat, paved walk between Sunset and Sunrise Points (0.5 mi each way) or a more challenging hike below the rim. Most visitors like to begin with the wonderful diversity found along the **2.9-mile Queen's/Navajo Combination Loop** (Hiking Guide on reverse page).

SCENIC DRIVE (Entire length of main park road)

Drive the main road 18 miles (35 min) until it ends at the park's highest elevations at Rainbow and Yovimpa Points. Consider the 1-mile Bristlecone Loop to stretch your legs. Stop at viewpoints like Natural Bridge and Agua Canyon on your return trip north. *Often enjoyed later in the day, or during busy times.*

Ranger Programs and Activities

RANGER PROGRAMS

Ranger talks and walks are provided every day. Join us for an exploration of how hoodoos happen at a Geology Talk, or explore the many sides of Bryce along a guided ranger walk. All ranger programs are free, and require no reservations. Outdoor programs are weather dependent and may be cancelled due to inclement weather. See schedule in the Visitor Center or by visiting our website at: www.nps.gov/brca/planyourvisit/calendar.htm

EVENING AND ASTRONOMY PROGRAMS

Join a ranger after dark exploring a wide-range of topics. Astronomy Programs are typically followed by night-sky viewing, weather dependent. See schedule in the Visitor Center or at www.nps.gov/brca/planyourvisit/calendar.htm

FULL MOON HIKES

In the winter, a full moon hike is offered the night of the full moon. In summer an additional hike is often held the night prior. Hikes are by lottery only. See ranger schedule for lottery times and locations. All members of the group must be present at the lottery and bring the footwear they plan to wear. Untreated soles, such as tennis shoes, are not permitted on this hike.

SNOWSHOEING AND X-COUNTRY SKIING

Snowshoe programs are offered when snowpack and staffing allow. On days the program is offered, it is typically substituted for the Rim Walk. Hikes are typically 1.5 miles, lasting no more than 2 hours. See ranger schedule for times and locations. Cross-country skiing is permitted in all areas of the park except trails beneath the rim. Obtain a map of groomed and ungroomed trails at the Visitor Center.

Recreation

BICYCLING

Bicycles are restricted to paved surfaces, campground roads, and the Shared-Use Path (see map). Bicycles are not permitted on any hiking trail. The Dixie National Forest has a paved bicycle path traveling over 17 miles through Red Canyon to connect to the park path, along with many miles of mountain bike trails within Red Canyon.

VIEWING NATURE

Species lists for flora and fauna may be obtained at the Visitor Center, and we welcome you to share what you see during your time in the park. Citizen Science apps such as eBird and iNaturalist are excellent ways to help track Bryce wildlife, too. **Only view roadside wildlife from paved pull-offs. Never approach or feed wildlife.**

BACKCOUNTRY

Areas include the 9-mile Riggs Spring Loop, and the 23-mile Under-the-Rim Trail. Fees are \$5/person. Backcountry permits are issued on a first-come, first-served basis at the Visitor Center up to 48-hours in advance. Sites limited to 6 per night. 2 group sites available with a limit of 15 per night. Maps available at the Visitor Center and park website.

NIGHT SKIES

Bryce Canyon is one of the darkest places in North America accessible by improved roads. Even when we're not hosting an astronomy program, we invite you to enjoy the night sky. All viewpoints present a unique view of the vastness above. Remember to always carry a flashlight (smartphone lights are inadequate) and walk carefully.

HORSEBACK RIDING

Wrangler-led rail rides are provided within the park Spring-Fall and range \$65 to \$90 dollars for 1.5 to 3 hr rides. Inquire at the Bryce Canyon Lodge or call 435-834-5500. The use of privately-owned stock is permitted. Please e-mail us or call 435-834-4736 at least 72 hours in advance to schedule a reservation inspection for your stock.

HIKING

Bryce Canyon has approximately 60 miles of trails to explore, and every single one will show you a unique side of this park. Refer to the Hiking Guide on the opposite page. By using the mileages listed on the map provided, one can create a wide variety of unique hikes. **Remember appropriate footwear and water.**
